PROFESSIONAL SUMMARY

Fabian Phil is a self-taught kinetic pop artist whose unique technique was discovered through a serendipitous experiment with seismic wave concepts in Africa. Born into a family of art collectors, he transitioned from a successful career as a geophysicist and business executive to become a recognized contemporary artist. His work has been exhibited internationally and featured in leading art publications.

EDUCATION & PROFESSIONAL BACKGROUND

Geophysics & Engineering

Advanced studies in geophysics and engineering, with focus on seismic wave analysis and data interpretation

Business Education

Business studies (London Business School MBA) complementing technical background, providing foundation for corporate leadership roles

Self-Taught Artist

25 years of self-directed artistic development, studying modern artists and developing unique kinetic pop art technique

CAREER TIMELINE

2002-2006 - Brunei, Borneo

Business Executive & First Painting

Working as Corporate executive in the jungle, painted first artwork in 2003 - a single painting that took one year to complete

2006-2010 - Africa

Discovery of Kinetic Art Technique

As geophysicist working with seismic waves, discovered kinetic pop art technique by painting Blue Lady on two plexiglass sheets in 2010

2010-2025 - Dubai, UAE

Full-Time Artist

Moved to Dubai and focused on developing kinetic pop art style, creating large format works capturing emotions and air movement. After Iraq (2015-2019), explored pop glasses in fluorescent paint, triptychs with 100 USD bills, and mixed digital design with traditional techniques

2015-2019 - Iraq

Challenging Period & Artistic Evolution

Four years of demanding work in Iraq led to exploration of pop glasses in fluorescent paint and triptych currency art

2024-2025 - Digital Design

Mixed Media Innovation & Zen Pandas

Started mixing digital design with traditional techniques, introducing cartoons, boxing themes, and fashion shows on catwalks. In 2025, seeking more peace after leaving corporate life, created pandas with zen Chinese landscapes - temples, lakes, cherry blossom trees

EXHIBITIONS & RECOGNITION

Recent Exhibitions

- DIFC Art Night 2025 - Dubai International Financial Centre, UAE
- World Art Dubai 2024 - Middle East's largest art fair

Media & Publications

- Artmosphere Magazine - Featured article on kinetic art innovation
- International Recognition - Growing collector base worldwide

ARTISTIC INFLUENCES & INSPIRATIONS

Visual Artists

- Klasen - Initial influence and experimentation
- Delorme - Artistic vision and technique
- Andy Warhol - Pop art sensibilities
- Contemporary kinetic artists

Literary & Cultural

- Ken Follett - Historical novels
- Dos Santos - Literary influences
- Lapierre & Collins - Historical storytelling
- Philosophy and history studies
- Law and acting interests
- Complex contract negotiation experience
- Woodworking at Alpine chalet (Chamonix/Megève)

UNIQUE TECHNIQUE

Developed through serendipitous experimentation with seismic wave concepts, painting characters twice on two plexiglass sheets to create transparency, light reflection, and kinetic movement. The technique creates optical illusions where eyes follow the viewer, similar to the Mona Lisa effect.

PHILOSOPHY OF SELF-IMPROVEMENT

"I have always sought as a goal to become better than what I am."

This philosophy drives constant learning and growth - from corporate contract negotiation to woodworking in the Alps, from geophysics to kinetic art. Each new series represents exploration of new possibilities and continuous self-improvement.

ARTISTIC SERIES

Mugshot Collection

4 artworks

A powerful series exploring themes of justice, rebellion, and social commentary through the lens of wanted posters. Features LED lighting and innovative acrylic techniques.

100 USD Bill Collection

2 artworks

Revolutionary tryptics that literally represent 100 USD bills with iconic figures as the central portrait. Each piece mimics currency structure while replacing traditional portraits with cultural icons.

Moving Hair Collection

2 artworks

Revolutionary kinetic art featuring portraits with moving hair elements. Unique acrylic sheet technique creates living, breathing artworks.

Expressive Emotion Collection

6 artworks

Revolutionary large-format portraits with eyes that follow you as you move. Each piece creates an emotional connection that transcends the artwork through optical illusion.

Pop Glasses Collection

10 artworks

Revolutionary portraits featuring fluorescent glasses that glow in the dark. Each piece illuminates emotions and creates a luminous connection that transcends the physical artwork.

Panda Pop Collection

2 artworks

Charming mixed media pieces featuring pandas in wanted poster format. Digital design printed on acrylic sheets enhanced with traditional painting techniques, creating playful yet thought-provoking art.

Digital Design Collection

2 artworks

Revolutionary mixed media combining digital design with traditional techniques. Digital designs are printed on acrylic sheets, then enhanced with painting and collage elements.

TECHNICAL SPECIFICATIONS

Medium

- Acrylic paint on two acrylic sheets
- LED lighting elements
- Fluorescent paint applications
- Digital design integration

Formats

- Small: 60x60cm, 70x70cm
- Medium: 90x120cm, 120x90cm
- Large: 110x110cm, 120x120cm
- Triptych: 70x180cm

AVAILABILITY

All artworks are available for acquisition. Pricing available upon inquiry. The artist is available for:

- Private viewings
- Commission work
- Exhibition collaborations
- Artist talks and presentations

REFERENCES

Available upon request from collectors, gallery owners, and exhibition organizers.

This curriculum vitae represents the professional journey and artistic development of Fabian Phil, a contemporary kinetic pop artist whose unique technique and innovative approach to art have gained international recognition in the contemporary art world.
